

Z-Firm News for August, 2002

ShipRush® Version 2 Released for QuickBooks® 2002 versions and CRM Software

ShipRush version 2 is released and available now! The easiest way to ship via FedEx® Corp. directly from QuickBooks Pro and Premier 2002, QuickBooks Enterprise Solutions, ACT!, Outlook, GoldMine, and other programs. Working as a plug-in for these applications, ShipRush lets users ship with a single click.

ShipRush is a full-featured shipping application, and turns the often awkward process of preparing shipments into a smooth action integrated with the financial and customer management software already in use. Tracking numbers and other shipment details are automatically posted back to the users financial or customer management application, so all users can see what was shipped, when, and how, while staying in their main application.

ShipRush version 2 also includes a developer API so that Visual Basic, MS Access and other programmers can easily put ShipRush into custom applications. Any development tool that supports ActiveX can use ShipRush, and integration involves minimal code. OEM versions are available for shrink wrap software developers.

"ShipRush lets us run a busy mail order business from QuickBooks Pro 2002 with super-efficient order processing. We highly recommend ShipRush!" said Ken Kolman, IT & Logistics Manager, A&M Enterprises in Seattle, Washington.

Roy Helmer, Senior Systems Developer at Integrated Sales Solutions, Inc, commented on the ease and power of the ShipRush ActiveX, "My client has specific shipping integration needs. With Z-Firm's ShipRush v1, I put shipping functionality in a Visual Basic application, and delivered an integrated solution to my customer with just three hours of programming. The ShipRush ActiveX was well documented, and easy to use."

System requirements

ShipRush runs on Pentium or higher systems using Microsoft Windows 98, Windows NT 4, Windows 2000, and WindowsXP. An internet connection of some kind (dialup, broadband, etc.) is required.

Price and availability

ShipRush version 2 is available now directly from Z-Firm. Pricing starts at \$125.

ShipRush version 1 is available for UPS® shipping. ShipRush version 1 is UPS OnLine® compatible.

ShipRush integrates shipping with the following software: Intuit QuickBooks Pro and Premier 2002, QuickBooks Enterprise Solutions, Microsoft Outlook 2000/2002, Act! v4/2000/v5/v6, GoldMine v4, v5.x (dBase and SQL), SalesLogix.net v5, SalesLogix2000 v3, v4, and Great Plains Dynamics
