Finally, a way to ship that is fast, easy, and RMS integrated! ShipRush[®] eliminates the pain, and helps leverage RMS as the center of your business.

- No rekeying of data. ShipRush[®] pulls the address from RMS automatically.
- Tracking numbers saved in the RMS sale.
- Print enclosure codes (like an order number) on the shipping label.
- Email notifications built in. Recipients are automatically alerted with tracking numbers.
- Return services and multi-parcel shipping options now available.
- Need ShipRush integrated with your custom application? Use the ShipRush SDK!

For more information, visit us at www.zfirm.com, or

Easy Installation

ShipRush can be up and running in minutes! Simply download ShipRush, run the setup wizard, and you're ready to ship.

Centralized Shipping Information

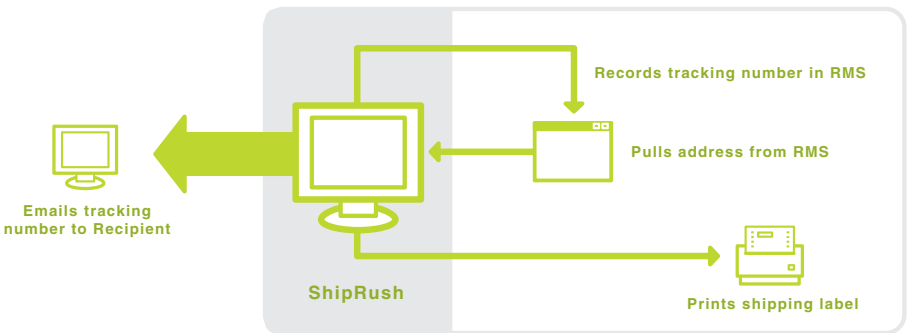

Who needs tracking numbers spread across shipping software, web sites, and hard copies? With ShipRush, all shipping activity is stored in RMS.

ShipRush is Easy to Use

The ShipRush interface is friendly and familiar. Don't worry about a learning curve, ShipRush is intuitive and fast.

Perfect for Small & Large Shippers

Even if your business ships only ten packages a week, ShipRush helps by 'cutting the clicks' and saving tracking numbers in your RMS system, for easy reference later. Large shippers benefit from the ease of use and keyboard navigation built into ShipRush—each shipment takes just a click or two.

ShipRush = Productivity

ShipRush brings big-business automation to small business:

- Efficient Shipment Processing—Processing a shipment takes just one or two clicks.
- Efficient Customer Service—Since tracking numbers are in the accounting or CRM application, any user can look up shipment information.
- No Duplication of Data—ShipRush uses RMS as the address book.
